

Please do not let the NAB's petition 04-160 pass has this would cause my 1st amendment rights to be violated. XM is doing it's members a good service by getting us drivers a heads up on the weather and traffic in the area we maybe going into there by helping us to plan our trips thru these cities and getting our loads delivered on time or so that we can let our customers no that will be late on delivery and why. Because my job depends on a lot of things to go right so that I can deliver safely and on time XM provides us with up to date NEWS, WEATHER AND TRAFFIC. They are also helping us to be safe out here on the road. I hope that you'll be able to see thru what NAB is saying about XM Radio and not let them get by with this petition 04-160. Thanks for learning me out. I'm just and Over The Road Truck driver trying to make a living and doing my job this best and safest way that I can and XM radio is making it easier and safer for all of us. Thanks again and have a great day! Sincerely John E Taylor Sr.
